

MUCH EXPECTED THIS SESSION

Easter Holidays, It Is Thought, Will Do Much
To Hasten Legislation Along.

LEGISLATURE CONVENES MONDAY

But Little In Way Of New Laws Has Been Completed
Thus Far--Way Behind The Schedule Of
Former Sessions.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., April 6.—The legislature resumes its session Monday night and will presumably industriously devote itself to the business of choosing a successor to United States Senator Spooner, the first ballot on which occurs at noon of Tuesday, April 16. Legislation will probably stand still during the coming week and until the election of a senator is accomplished, but after that new laws will be ground out with speed perhaps not equalled heretofore in the history of Wisconsin. Reasons for this expected expedition of business are found in the classification of bills in committees, permitting all the bills on one subject to be considered, acted on, perfected, revised and reported together; instead of handling one bill at a time and perhaps taking up one subject a number of times during the session. The condition of legislative business is such that the bills can now be reported out of the committees fast.

Expect Speed
If the expected speed of legislation develops, it will be a marked contrast to what has been accomplished in the 80 days that the session has occupied thus far. Thirty-two bills have been passed and signed by the governor or acting governor, and upon official publication have become laws. Most of these are not of large importance, being acts to create new towns, two creating new municipal courts, and one providing for a new probate judge in Milwaukee. One bill sent to the governor has been vetoed, being the Sprague bill to authorize the city of Elkhorn to remove a cemetery there. The purpose of this bill will be accomplished by another act. The reasons for the veto were that the bill was a piece of special legislation, giving one city power not granted to other cities of the same class.

Very Slow
When it is considered that each legislature of recent years has enacted some 500 laws, the comparative slowness of the present legislature, with a record of 32 acts in 80 days, can be appreciated. It is usual for the legislature to act slowly at first, but on account of the many changes in the rules and methods of procedure, and also because of the senatorial situation unexpectedly presented, this legislature has moved remarkably slow. The acts that have thus far gone become laws are as follows:

- New Laws**
Chapter 1, laws of 1907. Providing for mailing printed copies of bills and other legislative documents upon payment of a fee of \$12.
Chapter 2. Making an emergency appropriation of \$5,000 for the legislative reference library.
3. Providing for a second probate judge in Milwaukee county, the place recently filled by the election of John C. Karel.
4. Raising the salary of the clerk of the municipal court of Dane county from \$1,000 to \$1,200 a year and relieving the judge from the payment of \$300 of the clerk's salary.

PATRICK BEGINS 6TH YEAR AT SING SING

Still Confident of Getting Freedom—Is Working in Bakeshop at Present.

[SPECIAL TO THE GAZETTE.]
New York, April 6.—Hopeful as ever that he will win his fight for freedom, Lawyer Albert T. Patrick, convicted of the murder of the aged Texas millionaire, William Marsh Rice, today rounded out five years as a prisoner in Sing Sing. Though Patrick was arrested in October, 1900, it was not until April 7, 1902, nearly two years later, that he was taken to Sing Sing. For four years and eight months thereafter he was an inmate of the death house, during which time he continued to fight with most dogged persistence to escape the death chair. Since his sentence was commuted to life imprisonment by Gov. Higgins last December Patrick has been at work in the prison bakeshop. The unaccustomed labor has reduced his weight, but his health remains good and he appears confident that the petitions now circulating in his behalf will ultimately bring a pardon.

WISCONSIN RAILWAY MERGER CULMINATED

According to Rumors Resulting from Agreement Between Central and Cincinnati Line.

Chicago, April 6.—Through passenger service between Chicago and Cincinnati, over the Chicago, Cincinnati & Louisville railway, will be inaugurated tomorrow. Direct connections will be made here with the Wisconsin Central. The fact that the same interests are identified with both roads, W. A. Bradford, Jr., being the president of both, has led to the belief in railroad circles that the new arrangement means a practical merger of the two lines. The new arrangement will give the Chicago, Cincinnati & Louisville direct connection and through trains from the east to every part of Wisconsin and the northwest.

..Forty Years Ago..

Janesville Gazette, Saturday, April 6, 1867.—A comfortable Plim-A gentleman living but a short distance from this city is reported to have in his granaries 2,000 bushels of good wheat and 6,000 bushels of oats. Not bad to have when the first named grain is \$2.45 per bushel and the last named is 50 cents per bushel.

Advancing.—The wheat market of Milwaukee and Chicago was again excited yesterday, and the price advanced from seven to ten cents per bushel, and has gone up fifteen cents in this market today. There is but little wheat in the country and it would not be surprising if it touched \$3.00 before the first of June. Speculation in bread stuffs will be rife for the next sixty days; and the poor will seriously feel the effects of high prices in all kinds of foods.

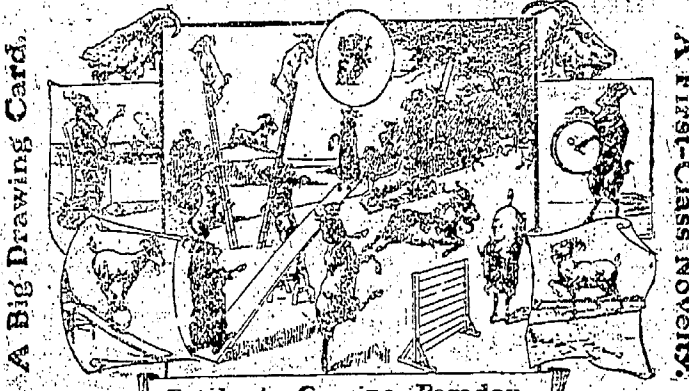

Notice.—To Soldiers Who Have Lost Their Discharges.—It having been ordered by the war department that all soldiers who have lost their discharges shall receive the additional bounty of \$100, provided by an act of

Congress approved July 28th, 1866, it is therefore necessary in order to obtain the same that all soldiers so situated shall make an immediate application to E. P. Simpson, who is authorized agent for the State of Wisconsin, who will attend at once to the collection thereof.

Seeding.—After diligent inquiry among the farmers that we have met for the past week, we hear of only two men who have managed to get any seed into the ground. It is often the case that much of the spring wheat is sown in the month of March, but that month this year more nearly resembled December than any other, and might readily have been mistaken for a winter month. If the autumn had not been so cold, the frost in April has already gone and the frost is not yet out of the ground, and only yesterday many portions of the State were visited by a fierce snow storm. Seeding must be late this spring under the most favorable circumstances, and this will add another to the spring causes to keep up the price of grain.

PLOT STORY UNTRUE, DECLARES PENROSE

SENATOR SAYS HE NEVER HEARD OF THE ALLEGED CABAL.

DID NOT TELL PRESIDENT

Secretary Loeb Says Roosevelt Learned of the Scheme Before the Dinner of the Conspirators.

Philadelphia, April 6.—United States Senator Penrose had this to say Friday about a published report that he told at a dinner in Washington the story of a "rich men's conspiracy" to prevent the selection of President Roosevelt's choice of a successor to himself: "It is absolutely untrue. I have never said any such thing. It is untrue. I have always been a supporter of and believer in President Roosevelt's administration and all its policies."

The senator was asked: "Have you ever heard of a \$5,000,000 fund to prevent President Roosevelt's naming his successor?" "No, absolutely not," was his reply.

Never Heard of the Combine. "Have you ever heard of the combination termed the 'rich men's conspiracy' to thwart the president in the development of his policies?"

"No, I have never heard of any such combination and have no knowledge of it."

"Did you attend a dinner of such a character as was mentioned to-day in the Washington dispatches?"

"No, I never attended a dinner where such a subject was discussed. I could not have done so, anyhow, for I have just returned from the Indian cruise with Secretary Metcalf and Senator Plinn of California. I arrived in Philadelphia Tuesday night after a month's trip. During that time I did not follow the newspapers or keep in touch with affairs in the United States."

President told. Before Washington, April 6.—It was stated at the White House Friday that knowledge of the "cabal" alleged to have been formed to defeat the policies of Mr. Roosevelt came to the notice of the president some time before the dinner at which the whole scheme was laid bare.

Persistent efforts were made at the White House to obtain the name of the person who is said to be responsible for giving away the information of the combination, but Secretary Loeb declined to make this public.

CARNEGIE GIVES \$50,000. Adds to Endowment of Institute Bearing His Name.

Pittsburgh, Pa., April 6.—W. N. This gift is in addition to the \$4,000,000 given by Mr. Carnegie some time ago.

Mr. Carnegie also established a pension fund for the benefit of those connected with the institute, which after the death of the recipient is to be continued to the widow in all cases where needed.

Suppose that every year from five to twenty good pigs should push through a weak place in the fence and say to you a fare-you-well. Would you be satisfied? Or suppose you lost on an average a calf every month through neglect to properly care for them. Would you stand for it? Then look at the procession of little yellow butter-fat globules slipping past you every day in the year—that exceeds in value the pigs or calves from \$50. to \$200. per year according to the size of your dairy. The Benefits of Modern Plumbing.

One of the most generally approved ideas of modern plumbing is that of installing one-piece lavatories supplied with hot and cold running water in the sleeping apartments and dressing chambers of the individual members of the household.

The benefits derived from this arrangement will not only be found necessary to modern living, but also prove a source of convenience and comfort to the occupants.

Send for a copy of booklet "Modern Lavatories," which shows the complete line of "Standard" One-piece Lavatories with approximate prices in detail.

OUR SATURDAY NIGHT

The recent house-cleaning in Chicago is repeated every now and then in all large cities, after a long season of misrule. People become desperate and the better element, regardless of party ties, get together and "clean the rascals out." A good administration for a brief period follows, and then the public business, which is usually nobody's business, begins to suffer, and soon conditions are as bad as before.

The question is often asked, why are people so indifferent and neglectful, and why is it that municipal governments are so weak and inefficient? The people who ask this pertinent question of course are not responsible, for they never take into account the fact that they are one of the units which make up the city's life.

The fact is, that neglect and indifference are a disease so common, that it affects the human race not only in its community and social life but in the individual life as well. It is the cause of more failures in business than all other causes combined, and it plants more graves in the churchyard every year than all the diseases in the catalogue.

It brings more sorrow and suffering to the home, and more embarrassment to the church than all the crimes on the list, this sin of neglect and indifference, which masquerades as a virtue under the guise of modesty.

Under the old caucus system many good men were too pure to vote. They feared contamination, and so the caucus acquired the reputation of being packed by the worst element in the community. But conditions have changed, and with the much exploited primary law has been ushered in an era of independence, where the individual voter is free to exercise his rights without fear or favor.

Results have been more or less disappointing, for the same spirit of indifference prevails, and in place of the packed caucus, parties are now led by a steering committee composed of office-seekers.

No law has yet been discovered to regulate neglect and indifference. The masses are neither office-holders, nor office-seekers, and unless the issue is exceptional, they care but little who is selected to serve them.

When the Pennsylvania railroad was under fire, a year ago, the discovery was made that a number of employees were being bribed in the interests of certain large shippers. The Interstate Commerce commission prepared a circular letter and sent it out to the 40,000 stockholders of the company, reporting the facts in detail.

They waited in vain for the storm of indignation which they supposed would follow, for only one letter was received in reply. Then the commission decided that the average stockholder in large corporations is "blessed with a spirit of indifference."

The bank failures which shake up the financial world, every now and then, are frequently caused by defalcation or embezzlement on the part of some trusted official.

Investigation invariably discloses the fact that the little board of directors has been negligent and indifferent, and so the money was lost, and the official who would have remained honest, if properly safeguarded, becomes a criminal and outcast.

The state of Wisconsin, some years ago, passed a license law, and left it optional with towns and cities, to say what the amount of license should be in their respective localities.

Two hundred dollars was the minimum, which all saloons must pay, and five hundred, the maximum, which might be fixed by majority vote in any given locality.

There was no principle involved, as any town could vote no license where public sentiment demanded it. Everyone supposed that \$500 would be the prevailing license fee, throughout the state, but what was the result?

In Janesville it was difficult to find fifty men to sign a petition for a special election, which the law provided, and when it was held, only 30 per cent of the voters cared enough about it to vote, and then the law license prevailed. It would be in force today, not only in Janesville, but in many other places, but for the fact that the saloon men themselves took hold of it and supported the maximum figure in an effort to drive out competition.

This spirit of indifference is prominent in all questions of moral as well as civic reform. It is as old as Sodom, where the fate of the city hung in the balance, while an effort was made to hunt up a handful of righteous men, and as modern as Pittsburg, with its recent record of comparative failure, along the same line. People who believe in special dispensations of providence, argue that the San Francisco earthquake was necessary to shake up the city and

redeem it from rottenness and corruption.

The place certainly needed something to disturb the lethargy and indifference which cursed it, as no other city in the land was cursed, and if it is finally redeemed the shaking up will prove a blessing.

The church of America today is 25 millions strong, but it is burdened with an indifferent and negligent constituency, which blights its influence and retards progress.

The opportunities of life are pounding on the doorway of young manhood, while the deaf ear of indifference turns away and complains. Elbert Hubbard recently found in an eastern prison a convict who was devoting his leisure time to a course of study. With chisel and mallet in hand he was working in the marble shop, and as the picture developed under his skillful touch he said, "In three years more I will leave the place a sculptor, for opportunity knocked at the door of my cell and I let him in."

He was a member in good standing of the great self-study class, and connected with the great school which is doing so much today to educate the masses along practical lines.

The long excursion trains which unload their cargoes of human freight, on the southern and western coasts during the month of January, are noted for carrying more invalids and semi-invalids than all other trains on the continent.

These unfortunate people are victims of neglect and indifference, to large extent. They have ignored and abused the laws of health until nature rebelled, and are now compelled to spend time and money freely in quest of a jewel which should never have been lost.

Neglect and indifference sap the moral, as well as the intellectual and spiritual nature of humanity. It is a disease so subtle in its working that no alarm results, yet so deadly that its victims are numbered by the thousands. The world will be better when this fatal disease is more generally recognized and its ravages checked.

The public will rest easier, now that a title has been found for Deitz, of Cameron dam fame. The difference between an anarchist and a private citizen is sometimes difficult to trace, but the game-wardens of Wisconsin are equal to almost any emergency.

The far end of a street argument is to call a man a liar, but it lacks the element of dignity, and is seldom convincing. The President has gained nothing in disposing of Harriman in the language of the street, and the episode will add nothing to his record as a statesman.

The only argument used in favor of Uncle Ike Stephenson's candidacy for the senate, is that he deserves it. Nothing is said about fitness or statesmanship, for the very good reason that there is nothing to say.

Three young men from Chicago, on their way to the university, entertained each other, the other night, on their poker experiences in Madison. It pays to educate the foreigner from across the line.

Property-owners on South Main street are wondering what they got for their money, when they paid for macadamizing the street. The money invested on the so-called improve-

ALL SPOKE WELL OF THE WORK.

In a little conversation recently a lady said:

"Dr. Richards, a queer coincidence occurred a little while ago at a party I attended.

"A number of us ladies were sitting together in the corner and we spoke of having just been to the dentist's."

"Where did you go?" one asked.

"To Dr. Richards," was the reply.

"Why, that's my dentist," said she.

"He does my work too," spoke up a third.

"Mine too," said the fourth.

"And mine," said the fifth.

And sure enough, all five ladies were patients of Dr. Richards.

"Well," said Dr. Richards, "what did they say as to my work?"

"They all liked your work and spoke well of you," she replied.

And why shouldn't they?

For no dentist takes more pains to avoid hurting than he.

No dentist does better work.

No dentist is more reasonable in his charges.

EMIL ROUSCH IDENTIFIES DEAD MAN AS FARM-HAND.

BY NAME OF PETER ORVAL

Worked Six Days Just Prior to the Tragedy on Place Adjoining Harmony Town Hall.

Up to two o'clock this afternoon several lines of investigation had been worked out under the direction of District Attorney J. L. Fisher without determining the identity of the unfortunate man whose dead body was found under railroad bridge No. 129 yesterday morning. Carl Fritz, who is at the Empire hotel, thought the man was "Shorty" Wells, an employee of Campbell Bros. circus, which has its winter headquarters at Fairbury, Nebraska. An inquiry sent there brought back the following reply from the circus management: "This forenoon: 'Don't know him nor his address.'"

A Missing Man Found.

Meantime word had come to Agent D. J. Lindsay from Supt. P. J. O'Brien of the Madison division of the C. & N. W. that a freeman named J. L. Foreign was missing. Mr. Lindsay made inquiries and received this message from H. D. School, train dispatcher at Baraboo: "Fireman J. L. Foreign of the Galena division, who has been working here, stood six times out on Wednesday and we have not been able to find him since. Age about 21 years. Smooth shaven and good looking. Bought an open-faced Hamilton watch No. 396224 from the company inspector recently. Father's name is Jerome L. Foreign, address 3818 Parrell avenue, Chicago. White address is 'Kathryn' Foreign, 2901 West 12th street, Chicago. Please advise me if this description tallies with the body of the man found south of Janesville." About ten o'clock this morning while Foreign's father in a very perturbed state of mind was conferring with the officials at the Chicago station, the missing man walked into his own home and the wife called up headquarters to say that all was well. O. B. Skinner, assistant claim agent, came from Chicago this morning and took measurements at the scene of the tragedy. He found the distance from the top stone of the abutment to the ground where the body lay was 20 feet and eight inches. He remarks the fact that the ballast outside the rail narrows as it approaches the bridge and his theory is that the man tumbled down the narrow passageway between the stone and the iron bridge-work.

Sheriff Makes Discovery

Sheriff J. U. Fisher went out this morning to investigate the story that a man named Strout on the Hogan farm which is perhaps an eighth of a mile away had seen a lantern light flashed under the bridge several times Thursday night. This was corroborated but the particulars were very vague and the culvert was found to be invisible from that point in the daytime. While making his inquiry, the sheriff came upon a farmer in the neighborhood named Frank who said that about nine o'clock Thursday evening a stranger had knocked at the door of his home some rods south east of the bridge and asked for lodging. The man either said that his name was Orfordville or that his name was Orford, Frank is not sure which. When refused what he asked the stranger asked how far it was to Afton and Beloit. Frank advised him to seek refuge at the Rudolph farm. He did not open the door and was therefore unable to give what might have been a very valuable description.

Still the evidence is of some value. It supports the conclusion that there was no foul play, no "red-lighting of a trooper from a circus train," nor anything of that sort. However, if it is found when the man's identity is learned, that he had money and valuables or that there was any motive for murder, a coroner's inquest will be held. Julius Hoppe, the Baraboo merchant whose trademark appears on the unknown man's clothes, is coming this afternoon and word has been sent to Orfordville to have someone come from there.

Man Identified

Late this afternoon the dead man was identified as Peter Orval, a farm hand who had been working for several days preceding his death on the farm of Emil A. Rousch adjoining the Harmony town hall, five miles east of Janesville. Mr. Rousch took the Gazette from his mail this morning and after reading the portion of the description relating to the leather supporter on the left wrist and other details, at once made preparations to visit Janesville and identify his erstwhile employee. Upon his arrival here he went at once to Rian's undertaking rooms where he gave a description before he saw the body that tallied exactly and left no ground for doubt. Orval came to his farm from Milton 10 days ago. He worked 6 1/2 days and with a fellow farm-hand visited Janesville last Saturday. While there he bought a small box of liquor but did not partake of it, and was not for work and after receiving a check for \$4 on the Merchants & Mechanics' bank started out for Beloit, where he said two nieces lived. The check has not been cashed and was not found on his clothes. A brother runs a saloon in Whitewater.

ROUND HOUSE MEN
TO HAVE BALL TEAM

Candidates Being Discussed—Games Will Be Played on Saturday Afternoon.

North-Western railway engineers, firemen and roundhouse employees will have a baseball team this summer. Plans for the organization are now being discussed. Several of these are professional players and the nine will be one of the strongest in the city. Games will be played on Saturday afternoons and it is very likely that challenges will be extended to teams in the so-called commercial league.

At Central hall last evening some seventy-five boys and girls ranging from five to fifteen years of age enjoyed the annual party tendered by Prof. F. W. Kehl at the close of the dancing school season. There were several cotillion figures with hand-some favors and the parents and friends, numbering over a hundred, who witnessed the festivities had almost as good a time as the little folks. Music was discoursed by the Carter & Gray orchestra and after nine o'clock the older devotees of the pastime took part in a social which lasted until one this morning.

For Fred Vogel, who was so seriously injured at the C. & N. W. Ry. Co.'s roundhouse a year ago as to be incapacitated for work since that time, a benefit dance was given under the auspices of Bower City Verein 30, G. T. U. G. at West Side Odd Fellows hall last evening. Reh-feld's orchestra provided the music and the festivities lasted until midnight. The attendance was large and a goodly sum of money was realized for the worthy purpose.

First and second grade pupils took part in a very interesting and successful piano recital at Prof. J. S. Taylor's studio yesterday afternoon. The young people, who all acquitted themselves in a creditable fashion, were: Ithamar Sloan, Elsie Cullen, Stanley Judd, Vina McArthur, Gene Woodman, Stanley Metcalf, Genevieve Whetstone, Max Davidson, Evelyn Pond, Glenn McArthur, Viola Luebke, Bessie Larver, Vera Hough, Frank Plodgett, Kenneth Catchpole, and Flora Jones.

Mrs. T. E. Healy entertained a company of ladies at her home, 105 Hickory street, Thursday afternoon. Several hours were devoted to music and cards and the society bank of \$10 was drawn by Mrs. Rudolph Baldwin as a lucky number prize. Delicious refreshments were served and a delightful time was enjoyed by all.

Mr. and Mrs. Frank L. McNamara will arrive this evening from Omaha to be the guests of Mr. McNamara's parents, Mr. and Mrs. H. L. McNamara, 101 Pearl street. Mr. McNamara was married on Thursday in Omaha to Miss Florence Child of that city. They will make their home in Hayward, this state.

Mrs. Whitelaw, formerly Miss Hattie M. Benedict, who taught in our high school some years ago, will speak before the Ladies' Missionary societies of the Congregational church Monday afternoon at four o'clock. At 6:15 the ladies will take tea with the Loani band, after which she will address the young ladies.

O. G. Mooney of this city, manager of the local branch of the Kalamazoo Knitting Co., and Miss Laura M. Mohn were wedded at South Bethlehem, Pa., at high noon on Thursday, April 4. The happy couple reached Janesville last evening and are stopping temporarily at the Empire Hotel.

Mr. and Mrs. W. E. Dulin, and daughter Isabelle have gone to Gehna, Ill., to spend a few days with Mrs. Dulin's brother.

W. J. McIntyre returned from Phoenix, Ariz., this afternoon. Mrs. McIntyre will remain in Phoenix until June.

Miss Helen Fitch of Baraboo is visiting at the home of Mr. and Mrs. E. K. Fitch on South Third street.

Sam Slaymaker and George McKenna of Beloit attended Prof. Kehl's dancing party here last evening.

THAT APPEAL FROM
SALARY DECISION

Will Probably Be Argued Before the Supreme Court During the August Term—Mayor Directed It.

It is learned from official sources that the appeal from Judge Grimm's decision on the aldermanic salary question will be argued before the supreme court at the August term. This appeal was taken at the direction of the mayor, the power to direct what shall be done in such cases resting with that officer and not with the common council. Moreover, now that the appeal has been filed, it cannot be dismissed without an argument in which definite and adequate reasons shall be set forth. It is claimed that the cost of this appeal will be considerably less than the expense of the original case, and a number of large taxpayers are said to be in favor of having settled once and for all by the highest tribunal the question as to whether or not this city, with its peculiar charter which in spirit at least seems to some to be unreservedly opposed to the idea of the aldermen or the mayor receiving any compensation whatsoever, can adopt Sections 925-30 of the general charter law so as to pave the way for the payment of salaries. It is pointed out that if this can be done, then there is no existing limit on the dimensions of such compensation and that the matter of regulation which has been thus far overlooked by the legislature should be attended to. West Superior has a special charter not unlike that of Janesville in many respects and when the matter of adopting the above-mentioned sections and paying their aldermen and mayor for their services was taken up before the supreme court it so proceeded was denied.

HOME INDUSTRY IS
TO BE CONSIDERED

Rock County Sugar Company Offers Its Growers a Liberal Contract.

The season for preparing ground and planting sugar beets is close at hand and farmers, and those who expect to grow beets this year, must decide soon as to the number of acres they expect to devote to the crop. The Rock County Sugar company are offering a liberal contract to growers as any factory in the state. The fact that they are a home concern should have weight in making final arrangements.

LARGEST OWNER OF EDGERTON PROPERTY

Dr. Henry W. Stillman Was Most Prominent of Early Pioneer Residents.

Dr. Henry Wells Stillman of Edgerton, who passed away at his home Monday night and whose death was noticed in the Tuesday Gazette, was one of the most prominent residents of the Tobacco City for nearly half a century. He was born at North Stonington, Conn., in 1820, and both his

DR. HENRY W. STILLMAN—Courtesy Edgerton Reporter.

Paternal and maternal ancestors were among the early settlers of the New England colonies.

Driven from Port Washington, Dr. Stillman was reared to manhood in his native town where he received an academic education and began the study of medicine at the age of 20 years. To further fit himself for the practice of his chosen profession he attended eastern medical colleges and received the degree of M. D. from Worcester, Mass., in 1848. He began the practice in Westbury, but six years later he came west and located in Port Washington in this state, where he continued to practice until 1862. The war split at that time ran high and the Luxemburg riots against the draft in Ozaukee county was the outcome. The well known union views of the doctor in support of the government caused his home to be mobbed and the family to be driven out of town. An appropriation was made to Dr. Stillman of \$1400 by the legislature of 1862 in payment by the state of the damages. The doctor had always cherished among his possessions a petition signed by forty or more of his old neighbors asking him to return to Port Washington and his practice, guaranteeing him protection if he would consent to do so. These reasons prompted Dr. Stillman to become a resident of Edgerton.

Druggist for Many Years.

He opened a drugstore upon his arrival here, which was then but a small hamlet. Retiring from the practice of medicine soon after, he devoted himself to the drug trade for some years thereafter. In the early 80's he sold his drugstore and retired permanently from business. His final habits formed in his early life brought him a competence in later years and at the time of his death he was probably the largest real estate owner in Edgerton.

Dr. Stillman was a gentleman of much culture and for many years took deep interest in the public school, serving for some years on the school board. He was a man of the strictest integrity and of the keenest sense of honor, but the public little knew of the many acts of charity which he always chose to perform unnoted. In his early life he became a member of the Seventh-Day Baptist church, the faith of his forefathers, and his daily life bore evidence of the sincerity of his profession.

While a resident of Rhode Island he was united in marriage to Miss Emergence Wilcox, a native of Homer, Madison county, N. Y., in 1846, who had been a loving helpmate for more than a half century. No children were ever born to them.

FISH LAWS AS THEY AFFECT ROCK COUNTY

No Closed Season for Fishermen in Rock River—Certain Rules as Regards Size.

In answer to several inquiries relative to the fish laws governing the catches in Rock river the following extract from the Fish and Game Laws is printed:

It was found that in Section 21—H of Chapter 489, laws of 1905, that there shall be no closed season on any game fish in Rock river where it flows through Dane, Jefferson and Rock counties.

Several exceptions were noted. No black bass less than eight inches in length can be taken and must, if caught, be removed from the hook without injury and deposited in the stream from which it was captured. No seines are to be drawn over spawning beds of game fish during the spawning season which extends from March 1 to May 25.

Set lines, nets and seines are forbidden.

Many people not being familiar with these laws have complained that men were fishing regularly in the river and they feared when they were able to cast a line the fish would be gone. The anxiety of such persons will probably be relieved after reading this article.

Discipline.

No amount of mere organization or of educational specialties can take the place of the function in education that is coordinate with tutelage, discipline. It can safely be asserted that discipline in the schools tends to discipline in the home, and the neglect of it in the one sphere reacts disastrously in the other.

What She Was Doing.

One day a neighbor borrowed our hatchet. Our little five-year-old boy kept wondering what she wanted with the hatchet. Presently he came running in and exclaimed: "Mamma, I know what Mrs. Smith wanted with the hatchet. She is down in the cellar hatching kindling with it."

THE ROUNDUP COLUMN.

Nick Altrock Breaks Mexican Running Records—Other Baseball Truth.

Down in Mexico the natives dress up the skeletons in the catacombs on state occasions and parade in review before them.

Several major league ball team managers have reversed the situation by dressing up a lot of corpses in uniforms for parade in review on the diamond this season.

P. S.—The person guessing the names of the largest number of baseball corpses will receive a prize of \$100 from any one who cares to pay it to him.

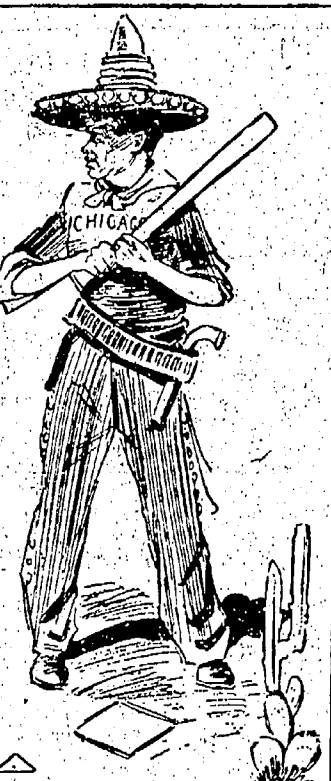

Although the average law limits the speed of automobiles to fifteen miles per hour, it is noticed that the salesman who cannot conscientiously guarantee his machine as having a capacity of one mile per minute has what is technically termed a fine chance.

One hundred years ago General Jackson raced horses and bet on them in Nashville, the capital of Tennessee, but in the argot of the modern devotee of the sport or game memories don't get you nothing!

You may expect that the Mexican tour of the Chicago White Sox will serve to enrich the baseball glossary with a few Spanish words. You shall hear a lot about banderillas, matadores, chill con carne, Charlie Carnies and such. You shall learn how to shoot a toro while hanging from the verbal trapeze. Ball players don't mind what you say about them as long as it is over their heads.

The trip to Mexico will probably work a big reformation in the dress and habits of the team. The men tried the Mexican Spanish style of uniform for a few games, but found it somewhat cumbersome. With this story is a drawing of Pitcher Walsh as he appeared at the bat.

Nick Altrock collided with a Mexican umpire and knocked out four of the

PITCHER WALSH AT THE BAT IN MEXICO.

"greaser's" teeth. When the umpire regaled his voice, he let out a terrible bunch of adjectives. "I don't know what he says, but I know what he means," said Nick, and he started running and didn't stop till he was securely locked in his room at his hotel.

P. S.—The reason for Nick's running away from a fight may be explained by the fact that all the umpires in Mexico carry 45 caliber seven shooters.

Pitcher Chick Fraser, the new Chicago National cub, has been playing with losing teams so long that he may get stage fright when he finds himself connected with the quick thinkers.

We fear that it is too late now to place much stress on the argument that horse racing never was by nature intended to be a game of percentage.

Colonel Jack Chilton is chairman of the Kentucky racing commission. We deem it unnecessary to enlarge upon this point.

Jack Palmer, ex-champion of Britain, was defeated in Los Angeles by Jack ("Twin") Sullivan in ten rounds. Palmer was knocked down four times. Palmer was pulled off on the Americans by Manager Lowes, who thus proves himself a great palmer. Palmer is going back home, where the game is easier.

Rough estimation of the sum which has been expended putting the major league players of the United States in condition for the championship races in the National and American league places the amount at \$100,000.

HUDSON RIVER BOAT BURNS

STEAMER AND CARGO DESTROYED, PASSENGERS SAVED.

Blazing Vessel Is Tied Up at Dobbs Ferry—Narrow Escape of One Woman.

Dobbs Ferry, N. Y., April 6.—The steamer City of Troy of the Citizens' line was burned to the water's edge here Friday night. All the passengers, some 65 in number, were landed safely. The steamer was completely destroyed, with its cargo of freight and 13 horses.

Edwin Gould's dock, to which the city of Troy tied up when it was found impossible to control the flames, also were burned.

The City of Troy left New York at six o'clock Friday night, bound up the Hudson river for Albany and Troy. The fire was discovered about eight o'clock, when the boat was eight miles below Dobbs Ferry. It broke out in the hold amidships and rapidly gained headway. The crew fought the flames for some time before it was seen they could not control them and then the captain turned his boat for Dobbs Ferry. When she tied up at the Gould dock the fire had gained such headway that little attempt was made to extinguish it and every effort was bent toward landing the passengers successfully.

Five women jumped overboard as the steamer approached the dock, but were rescued by firemen, who picked them up with a boat.

When it was thought that everyone had been landed it was discovered that a woman passenger was asleep in her berth, and two Dobbs Ferry firemen rushed into the burning steamer and carried the woman ashore.

An effort was made to rescue a number of horses on board, but the flames had gained such headway that it was found impossible to reach them. It was with some difficulty that the flames were prevented from taking hold of the Manila Anchor brewery, which is very near the dock which was burned.

CANADA TO BUY BISON.

Pablo's Big Herd Will Be Lost to United States.

Denver, Col., April 6.—Howard Eaton, of Wolf, Mont., announced here Friday that the herd of between 400 and 500 bison owned by Michael Pablo, now at the Flathead reservation, 35 miles west of Missoula, Mont., is about to pass into possession of the Canadian government, to which Pablo has given an option for the purchase of the animals. Some time ago Mr. Eaton secured an option on the herd at a valuation of \$300 a head and presented it to the United States government. President Roosevelt was desirous of preserving to the United States the herd, comprising one-half of all the bison surviving in this country. Mr. Eaton said, but no appropriation was made for the purpose.

THREATENED THE PRESIDENT.

Marcos Flores, Supposedly Insane, Is Arrested in New York.

New York, April 6.—Marcos Flores, who came here from San Antonio, Tex., was arrested here Friday on a charge of writing letters to the United States pension department threatening to "deal with President Roosevelt" unless action was taken on a certain pension application. After an examination before the magistrate, Flores was committed to Bellevue for examination, as to his sanity.

Wichita Jobbers Win Point.

Washington, April 6.—The freight rate on cotton piece goods from producing points in Texas to Wichita, Kan., was ordered reduced from 56 to 50 cents per 100 pounds by a decision rendered Friday by Commissioner Prouty for the interstate-commerce commission. The effect of the decision is to put Wichita jobbers on a competitive footing with those of Kansas City, St. Louis, Omaha and Chicago.

Dayton Man Is Indicted.

Dayton, O., April 6.—The grand jury which has been investigating the shortage in the accounts of the Dayton Gas company, in a final report Friday evening returned 18 indictments against George M. Smart, ex-secretary of the institution, charging him with embezzling \$331,348.82. Smart and his wife are visiting in the south.

Dying Man Commits Suicide.

San Francisco, April 6.—Percy I. Wells, a civil engineer of Waltham, Mass., arose from his death bed at the Grand Central hotel Friday afternoon, just as he was about to sign his will, and dashed his head against the wall with such force that he died a few moments later.

Seven Killed in Collision.

Vera Cruz, Mex., April 6.—In a collision between two freight trains on the Mexican railway (old Vera Cruz road), between the stations of Rinconada and Tamarindo, Thursday, seven men lost their lives and traffic was completely blocked for 11 hours.

Shoots Two; Kills Self.

Chicago, April 6.—After shooting his father-in-law and mother-in-law Friday afternoon Adam C. Rhein killed himself. Rhein's wife, Minnie, who is suing him for divorce and who was the chief object of his frenzy, escaped unharmed.

POINT HAD BEEN PROVED.

No Need for Young Man to Carry Experiment Further.

A young man who had inherited a large fortune from a rich but very economical relative decided to live on a scale commensurate with his greatly increased income; and was making arrangements to build a fine mansion, buy an automobile and invest in other expensive luxuries, when an elderly friend who had always been one of his advisers undertook to remonstrate with him. "What's this I hear about your squandering the money your uncle left you, Harry?" said the elderly friend. "I am not going to squander it," he answered, "but I'm going to get some good out of it." "It's enough to make him turn over in his grave. Didn't your uncle prove in his own case that a man could live on a personal expenditure of less than \$1,000 a year?" "Yes," "Well?" "Well, he proved it so thoroughly that I accept it as demonstrated. What is the use of my continuing the experiment?" Youth's Companion.

Could Use Him Later.

When "Gipsy" Smith spoke at a banquet the other evening he told a story which, he said, he had brought from England. An old Yorkshire farmer drove into Leeds on a market day behind a rather stolid-looking animal. Pulling up at the door of a business house, he threw the reins over the mare's back and alighted from the cart. A young man in search of a job happened by. "Shall I hold her for you?" he asked. "No," replied the farmer. "She don't need any holding. She'll stand all right." The young man was walking away when the farmer shouted to him. "Here, there," he said, "you can come back in half an hour and help to start her."

The Modesty of Women

Naturally makes them shrink from the ludicrous questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as Dr. Pierce's Favorite Prescription. It always helps. It is almost always cured. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle wrapper, contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay or non-professional testimonials.

The most intelligent women now-a-days trust on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well. All such communications are held sacredly confidential.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

A Real Distinction.

A young matron of New York is the only one of her family who is not in "Who's Who." Her father being a well known clergyman, and her mother, brother and sister being more or less celebrated writers. One day her sister was confiding with her on her lack of distinction in this respect. "Never mind, Belle," said the literary sister; "you may not be in 'Who's Who,' but you're the only member of the family who is in the telephone book, and that costs real money."
